

Certificate of Analysis

Name: Porcine Parvovirus 2 Capsid Protein 2 (Insect Cells), His-Tag

Product Code: REC31912-100 REC31912-500

Batch #:

Date of Manufacture:

Product Description: Recombinant Porcine Parvovirus 2 (PPV2) capsid protein 2 manufactured using the baculovirus expression system.

Strain/Isolate:

Purification: Cesium chloride (CsCl) gradient ultracentrifugation

Inactivation:

Health and Safety:

Amount: 0.5 mg

Concentration: ~5.7 mg/ml

Purity: %

Presentation: Liquid

Buffer: Purified protein (selected band of the CsCl gradient) was dialyzed against Phosphate Buffer Saline (PBS), pH 7.4 to remove CsCl.

Detergents:

Applications: ELISA

Application Notes: Recombinant PPV-His-VP2 expression confirmed in infected cells by Western with α -His specific antibodies. Tested in ELISA with α -PPV specific antiserum.

Usage Guidelines

Short Term Storage: -80°C

Long Term Storage: -80°C

General: Repeated freezing and thawing results in degradation of the protein.
