

Certificate of Analysis

HSV-2 sucrose purified antigen

Description: HSV-2 particles from a crude lysate are partially purified by sucrose gradient ultracentrifugation.

Product code: HS205-200

Virus: Herpes Simplex Virus type 2

Strain: Strain G

Batch number: P115SU

Protein conc.: 0.95 mg/ml (by BCA assay)

Purity: Partially purified by sucrose gradient centrifugation then dialysed.

Buffer: PBS + 0.1% Triton x-100

Inactivation: 0.1% Triton x-100. Tested by passage on permissive cells for 5 days yielding no CPE.

Usage advice: Avoid repeated freeze/thawing. Vortex before use.

Long term storage: Store frozen at less than -20°C, preferably -80°C
