

Certificate of Analysis

Name: Tick-Borne Encephalitis Virus NS1 Protein

Product Code: TBEV-NS1-100 / TBEV-NS1-500

Batch #:

Date of Manufacture:

Product Description: Recombinant Tick-Borne Encephalitis Virus NS1 protein produced in 293 human cells. Protein contains a C-terminal His-tag.

Expression System: HEK293

Accession: NP_043135.1

Strain/Isolate: Neudoerfl

Amino Acids: 773-1128

Tag: 6xHis-tag, C-terminus

Amount: 0.1 mg / 0.5 mg

Concentration: mg/ml

Purity: >90% pure by SDS-PAGE

Presentation: Liquid

Buffer: DPBS pH 7.4, 0.2µm filter sterilised

Usage Guidelines

Short Term Storage: +4°C

Long Term Storage: -80°C

General Storage Conditions: Multiple freeze/thaw cycles are to be avoided.

Stability: Stable at +4°C for 1 week; stable for 1 year at <-20°C.

Freezing: Can be frozen
