

Certification of non-infectious material

Name: Yellow Fever vaccine serum IgM bleed

Product number: SER71201

Description: SER71201 is a liquid preparation of serum obtained from a recipient of Yellow Fever vaccine (17D strain), 2 weeks post immunisation. It is therefore suitable as a source of anti-YF IgM antibodies.

This preparation is derived from healthy human donors, with no evidence of infection or exposure to infectious agents. The material has been tested and found to be negative for HBsAg, anti-HIV antibodies/antigen and HCV antibodies.
