

Certification of non-infectious material

Name: Japanese Encephalitis vaccine serum pre-bleed

Product number: SER71207

Description: SER71207 is a liquid preparation of serum obtained from a recipient of Japanese Encephalitis vaccine, prior to their immunisation. It is therefore suitable as a negative control to confirm the specificity of anti-JEV assays.

This preparation is derived from healthy human donors, with no evidence of infection or exposure to infectious agents. The material has been tested and found to be negative for HBsAg, anti-HIV antibodies/antigen and HCV antibodies.
