

## Antibody Datasheet

<b>Product Name:</b>	Rabbit anti HIV-1 Tat
<b>Product:</b>	Rabbit anti HIV-1 Tat antibody
<b>Product Type:</b>	Polyclonal antibody
<b>Product code:</b>	PAB21465-200
<b>Batch Number:</b>	
<b>Amount:</b>	200 µl
<b>Physical State:</b>	Liquid
<b>Buffer:</b>	100mM sodium citrate, 50mM Tris and 0.05% v/v glycerol. Neutral pH.
<b>Immunogen:</b>	Recombinant purified tat protein (HIV-1 Clade B) expressed in E. coli.
<b>Purification:</b>	Polyclonal immunoglobulins purified by protein A affinity chromatography.
<b>Reactivity:</b>	Tat protein Clade A and B, GST fusion protein.
<b>Specificity:</b>	Tat protein and various Tat peptides.
<b>Applications:</b>	WB, ELISA, IFA
<b>Storage:</b>	Shipped at +4°C. When stored at +4°C, the antibody is stable for 18 months. For extended storage, the solution may be frozen at -20°C in working aliquots. Avoid repeated freezing and thawing cycles
