

Certificate of Analysis

Name: Recombinant human integrin α -5/ β -3.

Product code: REC31719-100 / REC31719-500

Batch #: 19071808P

Description: Recombinant human integrin α -5/ β -3 is composed of the human integrin β -3 protein (NCBI accession number AAA52589.1, AA1-718) with a C-terminal 6x histidine tag, and human integrin α -5 (NCBI accession number NP_002196.4, AA1-992) with a C-terminal 6x histidine tag. Both proteins were co-expressed in HEK293 cells and purified from culture supernatant by immobilised metal affinity chromatography. The resulting protein is a mix of integrin α -5 and integrin α -5/ β -3 heterodimer.

Sequence Strain: human

Amount: 100 μ g / 500 μ g

Protein conc.: 0.61 mg/ml

Presentation and Buffer: Liquid, Dulbecco's phosphate buffered saline pH7.4, sterile filtered.

Usage guidelines:

Short term storage: +2°C to +8°C

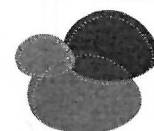

Long Term storage: -80°C

Stability: Not tested

Freezing: Can be frozen, but avoid multiple freeze/thaw cycles
