

## Certificate of Analysis

**Name:** Legionella pneumophila antigen (native extract)

**Product code:** NAT41580-100

**Batch #:** TBA

**Description:** Inactivated Legionella pneumophila antigen from culture.

**Strain:** Legionella pneumophila.

**Health and Safety:** This product contains Sodium Azide as preservative. Although the amount is 0.09%, this substance is poisonous and hazardous and it should be handled by trained staff only. Good Laboratory Practices should be followed when handling this material. The product has been inactivated; however, no method of inactivation can be 100% guaranteed to be effective, and the product should be handled as if capable of transmitting infectious agents. Appropriate local biosafety procedures should be maintained at all times.

**Amount:** 100µl

**Concentration:** Batch specific

**Presentation:** Liquid. Phosphate buffer with salts, pH 7.4, 0.09% Sodium Azide (NaN<sub>3</sub>).

### Usage guidelines:

Shipped on dry ice.

Storage: Short term storage at 2-8°C. Long term storage at -20°C.

Avoid multiple/freeze thaw cycles by storing multiple aliquots at -20°C.
