

Certificate of Analysis

Name:	Measles Virus Large Polymerase Recombinant Protein.
Product code:	REC31748-100 REC31748-500
Batch #:	
Description:	Recombinant protein produced in E. coli. Comprises the large polymerase immunodominant regions, 58-149 amino acids.
Amount:	100µg 500µg
Formulation:	50mM Tris-HCl, pH 8.0, 60mM NaCl, 10mM Glutathione, 0.1% Sarcosyl and 50% Glycerol.
Purity:	> 95% as determined by 10% PAGE (Coomassie staining) and RP-HPLC.
Presentation:	Liquid.
Applications:	Can be used as antigen in ELISA and Western Blots. Immunoreactive with sera of Measles Virus infected individuals. For Research Use Only.

Usage guidelines

Storage:	Short term storage at 4°C. Long term storage at below -18°C. Avoid multiple/freeze thaw cycles.
