

Antibody Datasheet

Product Name:	Goat Anti Poliovirus Polyclonal Antibody
Product Type:	Polyclonal antibody
Product code:	PAB21466-500
Batch Number:	
Amount:	500 µl
Physical State:	Liquid
Buffer:	Supplied in PBS, pH 7.2, with 0.1% sodium azide added as preservative.
Immunogen:	Pool of purified Poliovirus type 1, 2, and 3.
Purification:	The IgG fraction is purified from goat anti-serum to >95% purity.
Specificity:	Reacts with multiple antigens of Poliovirus type 1, 2, and 3.
Applications:	WB, ELISA, IFA. Suitable for use in immunoassay development or other applications.
Storage:	Store antibody at -20°C. Avoid freeze-thaw cycles.
Intended Use:	For Research Use Only. Not intended for diagnostic use.
