

Certificate of Analysis

Name: HIV-1 p24 protein (Clade B)

Product code: REC31743-100 / REC31743-500

Batch #: 19121716P

Description: Recombinant HIV p24 protein (NCBI accession number ABO61536, AA35-265, L40I) produced in HEK293 cells. Protein carries a C-terminal 6x His-tag. Protein was purified by immobilised metal affinity and ion exchange chromatography from the pellet of transfected cells.

Amount: 100 µg / 500 µg

Protein conc.: 0.42 mg/ml

Presentation and Buffer: Dulbecco's phosphate buffered saline (DPBS) pH 7.8.

Usage guidelines:

Short term storage: -80°C.

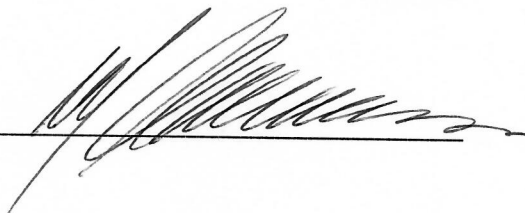

Long Term storage: -80°C.

Stability: not tested.

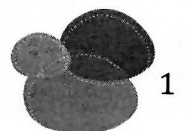

Freezing: not tested. Avoid multiple freeze-thaw cycles.
