

Certificate of Analysis

Name: African Swine Fever Virus P30 (Insect Cells)

Product Code: REC31802-50

Batch #:

Date of Manufacture:

Product Description: Recombinant African Swine Fever virus p30 protein, manufactured in insect cells and purified by affinity chromatography.

Expression System: Insect cells

Strain/Isolate: Morara / Georgia

Amount: 0.05 mg

Concentration: mg/ml

Purity: >85% by SDS-PAGE

Presentation: Liquid

Buffer: PBS, pH7.4 with 0.05% NaN₃ added as preservative.

Applications: Suitable for use in immunoassay development or other applications.

Usage Guidelines

Short Term Storage: -80°C

Long Term Storage: -80°C

General Storage Conditions: Avoid multiple freeze/thaw cycles.
