Certificate of Analysis

Name: Mumps Virus Nucleoprotein (Strain L-Zagreb)

Product code: REC31811-100 / REC31811-500

Batch #: 19102925P

Description: Recombinant Mumps Virus Nucleoprotein (NCBI accession number AHA38270.1, AA1-549). Protein was produced in HEK293 cells and purified by repeated density gradient centrifugation. Protein is presented in 4M urea to prevent large-scale capsid formation. Dynamic light scattering analysis showed particle assemblies of 20nm to 300nm in size.

Strain: MuVi/Zagreb.HRV/28.12(G)

Amount: 100 µg / 500 µg

Protein conc.: 2.82 mg/ml

Presentation and Buffer: 50mM DEA pH10.0, 10mM NaCl, 4M urea

Usage guidelines:

Short term storage: -80°C.

Long Term storage: -80°C.

Stability: not tested.

Freezing: not tested. Avoid multiple freeze-thaw cycles.
