

## Certificate of Analysis

**Name:** Feline Viral Rhinotracheitis Antigen

**Product code:** NAT41598-100

**Batch #:**

**Description:** Feline Viral Rhinotracheitis (FVR; feline herpes virus, FHV-1) antigen, produced in CRFK cells.

**Sequence Strain:** C-27

**Health and Safety:** This product should be handled with appropriate safety precautions for biological materials. Local biosafety procedures should be maintained at all times.

**Amount:** 100µg

**Concentration:** 1mg/ml

**Presentation:** Liquid

**Buffer:** 0.05M Glycine, pH 9.

**Detergents:** <0.1% CHAPS, <0.01% SDS.

### Usage guidelines

**Storage:** Store frozen at -70°C or below.

**General:** N/A

**Stability:** Not tested

**Freezing:** Not tested

**For Research Use Only**
