

## Certificate of Analysis

**Name:** Streptavidin-FITC Conjugate

**Product Code:** REC31803-1000

**Batch #:**

**Description:** Purified Streptavidin conjugated to Fluorescein isothiocyanate (FITC).

**Expression System:** E. coli

**Amount:** 1mg

**Concentration:** 1.0 mg/ml

**Presentation:** Liquid

**Buffer:** PBS containing 0.1% sodium azide.

**Applications:** ELISA, FLISA (1:100 – 1:400), FC ( $\leq 1 \mu\text{g}/10\text{E}6$  cells in a final volume of 100  $\mu\text{l}$ ), WB

**Application Notes:** Since applications vary, you should determine the optimum working dilution that is appropriate for your specific need.

### Usage Guidelines

**Short Term Storage:** +2 to +8°C

**Long Term Storage:** +2 to +8°C

**Products are for Research Use or for Further Manufacturing Use only. Not for Diagnostic or Therapeutic Use.**
