

Certificate of Analysis

Name: Streptavidin-AP Conjugate

Product Code: REC31804-1000

Batch #:

Description: Purified Streptavidin conjugated to Alkaline Phosphatase (AP).

Expression System: E. coli

Amount: 1mL

Presentation: Liquid

Buffer: 50 mM Tris, 1 mM MgCl₂, 50% glycerol, pH 8.0, containing 0.1% sodium azide.

Applications: ELISA (1:2,000 – 1:4,000), FLISA, FC, WB

Application Notes: Since applications vary, you should determine the optimum working dilution for your specific need.

Usage Guidelines

Short Term Storage: +2 to +8°C

Long Term Storage: -20°C

Products are for Research Use or for Further Manufacturing Use only. Not for Diagnostic or Therapeutic Use.
