

Certificate of Analysis

Name: Streptavidin-HRP Conjugate

Product Code: REC31805-1000

Batch #:

Description: Purified Streptavidin conjugated to Horseradish Peroxidase (HRP).

Expression System: E. coli

Amount: 1mL

Presentation: Liquid

Buffer: 50% glycerol, 50% PBS, pH 7.4.

Applications: ELISA (1:4,000 – 1:8,000), FLISA, FC, WB

Application Notes: Since applications vary, you should determine the optimum working dilution that is appropriate for your specific need.

Usage Guidelines

Short Term Storage: +2 to +8°C

Long Term Storage: -20°C

Products are for Research Use or for Further Manufacturing Use only. Not for Diagnostic or Therapeutic Use.
