

Certificate of Analysis

Name: Brucella Abortus Antigen

Product code: NAT41599-100 / NAT41599-500

Batch #:

Date of Manufacture:

Description: Brucella abortus lysate, produced by fermentation.

Sequence Strain: Strain S99 - Weybridge

Health and Safety: Bioburden is ≤ 10 cfu/ml by membrane filtration test. No specific biological hazards are known to be associated with this product. It should be handled with appropriate safety precautions for biological materials.

Amount: 100 μ g / 500 μ g

Concentration: 0.15-1 mg/ml

Presentation: Liquid

Buffer: Glycine buffer (pH 9.5) containing n-octyl- β -D-glucopyranoside.

Detergents: N-octyl- β -D-glucopyranoside.

Other Information: QC serum panel (multiple negative, borderline and positive sera) within defined reactivity range in ELISA (IgA, IgG and IgM).

Usage guidelines

Storage: -80°C

Stability: Not tested

Freezing: Avoid repeated freeze-thaw cycles.
