Certificate of Analysis

Name: Human Immunodeficiency Virus Full-Length Gag Protein [HIV-1/Clade B]

Product Code: REC31973-50

Batch #:

Date of Manufacture:

Product Description: Recombinant full-length HIV-I Gag protein.

Expression System: E. coli

Accession: AAD39400

Strain/Isolate: Clade B

Amount: 0.05 mg

Purity: >90%, estimated by SDS-PAGE

Presentation: Lyophilised

Buffer: Preservative 1% glycerol.

Resuspension: The protein should be reconstituted in apirogenic sterile water or 1X PBS.

Applications: SDS Page, Western Blotting

Usage Guidelines

Storage Conditions: Shipped at room temperature. The lyophilized protein is stable for 24 months if stored at -20°C. The reconstituted solution must be used immediately.

Certificate of Analysis

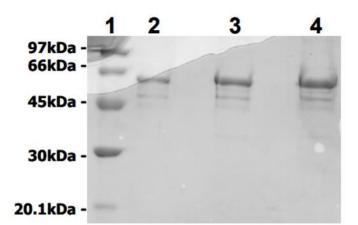

Name: Human Immunodeficiency Virus Full-Length Gag Protein [HIV-1/Clade B]

Product Code: REC31973-50

Batch #:

SDS-PAGE: Purified recombinant HIV-1 Gag protein was separated by SDS-PAGE (12% polyacrylamide)

and stained with Coomassie Blue.

- 1: MW marker
- 2: Gag protein [2.5µg]
- 3: Gag protein [5.0µg]
- 4: Gag protein [7.5µg]
