

Antibody Datasheet

Name: Influenza B Virus Nucleoprotein Antibody (HL1073)

Product Code: MAB12482-100 / MAB12482-500

Batch #:

Date of Manufacture:

Product Description: Anti-influenza B virus nucleoprotein monoclonal antibody, made in rabbit.

Clone Number: HL1073

Isotype: IgG

Amount: 0.1 mg / 0.5 mg

Concentration: mg/ml

Presentation: Liquid

Buffer: PBS

Stabilizer: No stabilizer added

Preservative: No preservative added

Immunogen: Recombinant protein encompassing a sequence within the N-terminus region of Influenza B virus Nucleoprotein (B/Taiwan/753/2005). The exact sequence is proprietary.

Purification: Affinity purified by Protein A.

Specificity: Influenza B virus

Applications: WB, ICC/IF, ELISA, Lateral Flow, Sandwich ELISA

Matched Pair: Capture: MAB12482 and Detection: MAB12480 / MAB12481 or Capture: MAB12480 / MAB12481 and Detection: MAB12482 (conjugated to HRP)

Usage Guidelines

Short Term Storage: 1-2 weeks at 4°C.

Long Term Storage: -20°C

Storage Guidelines: Store as concentrated solution. Centrifuge briefly prior to opening vial. Avoid multiple freeze-thaw cycles.

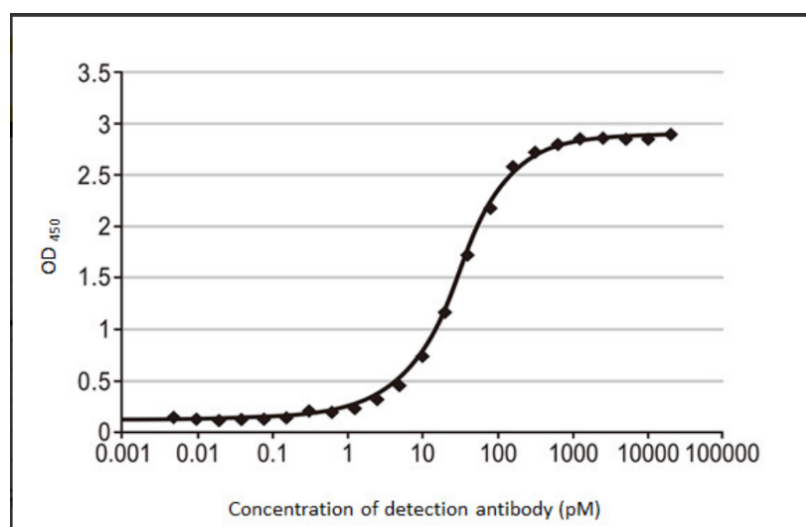

ELISA: Sandwich ELISA detection of viral lysate derived from different strains of Influenza A virus (i.e., A/California/07/09 (H1N1)) and Influenza B virus (i.e., B/Brisbane/33/08; B/Florida/02/06; B/Florida/04/06; B/Florida/07/04; B/Massachusetts/2/12; B/Panama/45/90; B/Wisconsin/1/10) using antibodies as below.

Capture: Influenza B virus Nucleoprotein antibody MAB12482 (5 µg/mL)

Detection: HRP-conjugated Influenza B virus Nucleoprotein antibody MAB12481 (1 µg/mL)

ELISA: Indirect ELISA analysis performed by coating plate with recombinant full-length Influenza B virus nucleoprotein (50 ng). Coated protein was probed with Influenza B virus Nucleoprotein antibody MAB12482 (20000-4.77*10⁻³ pM). Rabbit IgG antibody (HRP) (1:10000) was used to detect bound primary antibody. EC50 : 29.94 pM
