Certificate of Analysis

Name: Mouse Anti Influenza (A) nucleoprotein Antibody (1371)

Product Code: MAB12527-100 / MAB12527-500

Batch #: 23120412

Date of Manufacture: 4th December 2023

Product Description: Mouse monoclonal antibody against Influenza A virus nucleoprotein. Isotype IgG1. Purified from ascites fluid or culture medium by protein A chromatography or sequential differential precipitations.

Clone Number: 1371

Amount: 0.1 / 0.5 mg

Concentration: 2.9 mg/ml

Presentation: Liquid

Buffer: 0.01 M phosphate buffered saline, pH 7.2 including 0.09% sodium azide

Specificity: Specific for Influenza A. Recognizes the nucleoprotein.

Applications: IFA & ELISA

Application Notes: Working dilution must be determined by the user. Suggested starting ranges are

20ugml to 100ugml for IFA and 1ugml to 10ugml for ELISA.

Usage Guidelines

Short Term Storage: +4°C

Long Term Storage: -20°C

Storage Guidelines: Avoid multiple freeze-thaw cycles

Product Code: MAB12527-100 / MAB12527-500

Batch #: 23120412

Antigen down ELISA: Plate coated with 1ug/ml of Influenza nucleoprotein (The Native Antigen Company REC31999) with human MXRA8 (HIS tag) control, in DPBS over night at ambient, blocked with 1% BSA in DPBS, Washed 2 X 300ul DPBS + 0.1% Tween 20. Antibody diluted in DPBS, 1% BSA, 0.1% Tween 20, over the range 10ngml to 0.03ngml, incubated shaken for 2 hours. Washed 3 X 300ul DPBS + 0.1% Tween 20. Bound antibody was detected using an anti-mouse IgG-HRP conjugate (PAB21441HRP) diluted 1 in 10,000, shaken 1 hour, Washed 6 X 300ul DPBS + 0.1% Tween 20. Plate developed with TMB-HK (Europa MO701D) 15min and stopped 200ul/well 1M HCl. Plate read at 450nm and 405nm, high 450nm readings back-calculated from 405nm values.
